

IEIDC XII Practitioner's Day Programme

International Centre of Deauville

(CID; Palais Des Congrès De Deauville, France; <https://www.congres-deauville.com/en/>).

Practitioners' Day #1 (CID: Lexington Room)

Thursday 3rd OCT 24

10:45

Welcome and Introduction

11:00

Lutz Goehring "EHV-1 – will we get it under control in the near future?"

11:30

Nicola Pusterla "Clinical relevance of enteric viruses for the equine practitioner."

12:00

José Carlos Valle Casuso "A new perspective on the diagnosis and control of equine infectious anemia disease."

12:30

Gaelle Gonzalez "West Nile Fever threat : prognosis, clinical signs and treatment."

13:00

LUNCH

15:00

Parasite Control Guidelines Discussion

16:00

BREAK

16:30

Nora Biermann "Antibiotic resistance dynamics in horses."

17:00

Simon Le-Hello "Antibiotic resistance update: the human perspective."

17:15

Round table discussion "Antimicrobial use: best practice." (Horses & Humans)

Practitioners' Day #2 (CID: Auditorium)

Friday 4th OCT 24

08:30

Jessika Cavalleri "TBE: an underdiagnosed disease?"

Practitioners' Day #2 (CID: Lexington Room)

Friday 4th OCT 24

08:30

Coralie Lupo "Isolated fever syndrome in equidae: contribution of 10 years of surveillance."

09:00

Laurence Malandrin "Equine piroplasmiasis: epidemiology and genetic diversity of the etiological agents in Europe."

09:30

Pierre-Hugues Pitel "Borreliosis: from underestimation to overdiagnosis."

10:00

Martin Nielsen "Equine anthelmintic resistance: is it Doomsday yet?"

10:30

BREAK

11:00

Richard Newton "Equine Vaccine supply issues."

11:15

Hiroshi Bannai "A supply issue of equine infectious anemia AGID kits, Japanese experience."

11:30

Stephan Zientara "Emergence or risks of emergence of orbiviruses Blue Tongue and Africa Horse Sickness in Europe."

11:45

James Gilkerson "Equine gammaherpesviruses: nature's perfect parasites?"

12:00

Karine Laroucau "Glanders: epidemiology and diagnostic tests"

12:30

Camille Normand "Infectivity of EHV-4 in water and stability on inanimate surfaces : identification of new antiviral compounds to help combat this risk."

13:00

LUNCH

14:30

Ann Cullinane "Equine Influenza epidemiology and control."

15:00

Romain Paillet "An update on current equine influenza vaccines used in the field and associated protection."

15:15

Manabu Nemoto "Antigenic evaluation for selection of equine influenza vaccine strains and the potential of recombinant viruses as vaccine strains."

15:30

Andrew Waller "Globetrotting: a journey into the evolution, transmission and prevention of disease caused by *Streptococcus equi* and *Streptococcus zooepidemicus*."

16:00

BREAK

16:30

Richard Newton "Imminent risks for equids in Europe."

17:00

Roundtable discussion "Biosecurity"

18:00

Practitioners' Closing Ceremony

WE LOOK FORWARD TO SEEING YOU AT DEAUVILLE
